MDUSD Education Foundation Annual Giving Campaign

Give Ten/Making Dreams Come True

Imagine if every elementary school student had access to enriching art, science, and robotics; every middle school student learned a second language; and every high school student could take all of the classes he or she needs, from AP Computer Science to Construction Management. The MDUSD Education Foundation is working to make this dream a reality. We fund quality STEAM (Science, Technology, Engineering, Art, Math) for all district students. Some of the programs we have funded are:

- Chalk Art at our elementary school sites
- Mystery Science for all elementary schools
- Chabot Space and Science Center field trips for middle schools
- Mosa Mack science program – middle schools
- Explore Learning GIZMO science program – high schools
- Coronavirus Remote Learning Fund – all grades
- And more! [MDUSD Education Foundation | Home \(mdedf.org\)](https://www.mdedf.org)

You can help make dreams come true by participating in this year's annual Give 10 campaign. Can you give \$10 for each student you have attending district schools? Are you in a position to make that a recurring monthly donation? Does your employer have a corporate match program to match your donation? We understand not all our community members are able to make a financial contribution. If you cannot give \$10 please give 10 minutes of your time to like and share us on Facebook [Facebook](#), Instagram [@MtDiabloEF](#) and Twitter [@MtDiabloEF](#).

As we embark on our fifth year we are proud of our track record to date. We have funded programs for in person instruction, remote learning, hybrid learning, and now back to in person instruction. Despite the pandemic the foundation is here, stronger than ever, continuing to support the students of MDUSD regardless of zip code. Will you join us?
