## Together We Can

Ready to help students experience hands-on science education with a focus on adventure, self-discovery, and environmental stewardship? Thanks to donors like you, last year we funded Exploring New Horizons tide pool field trips for three of our Title I elementary schools. For some students this was their first time exploring tidepools or even seeing the ocean in person. This year we want to help more of our students attend multi-day outdoor education camps.

Mt. Diablo Education Foundation is dedicated to promoting quality public education for **every** student. Today is GivingTuesday, a global day of giving — and together we can do even more to create exceptional educational experiences for our students. But we can't do this without you! Here's how you can help:

- **Donate now. [Donate today](#)** and know that your donation will go towards funding STEAM programs for our students.
- **Spread the word!** Encourage friends, family, and colleagues to join you. Share on social media what quality STEAM education means to you. Use the special hashtag #MDEDFGIVE and tag foundation socials in your post to harness the power of social media and connection to help share your story!
- **Ask your employer if they match donations too.** Some companies even match #GivingTuesday employee donations at \$2 for every \$1 given.

Thank you for being a part of the Mt. Diablo Education Foundation team.
